## Vision

The North Hobart Neighbourhood Plan vision reflects the community aspirations for North Hobart as a welcoming and green urban village, with a flourishing high street at the core of community life.

### What is a Neighbourhood Plan?

A Neighbourhood Plan is a guide for how a local area will develop and improve over time.

The Plan will implement state, regional and municipal strategies for things like housing, transport, parks, street trees and economic growth.

The Plan will help the neighbourhood develop in a sustainable way that builds on what is special in North Hobart, it provides:

- A shared community vision
- Guidance to manage change which benefits the community
- Certainty and confidence for local residents, developers, and government agencies about the direction of specific areas
- Economic growth opportunities
- Priorities for infrastructure spending which will support the neighbourhood.

The Plan includes actions which support:

- Housing affordability and diversity in the area
- Planning controls, how land is used and buildings designed
- New open space, such as parks and street trees
- Lively public spaces for markets and events
- Renewal of the Elizabeth Street, hight street precinct
- Community facilities to connect people
- Transport, walking and cycling paths, and bus shelters.
