CLIMATE READY HOBART

Working together for our living city

HOBART CLIMATE ASSEMBLY

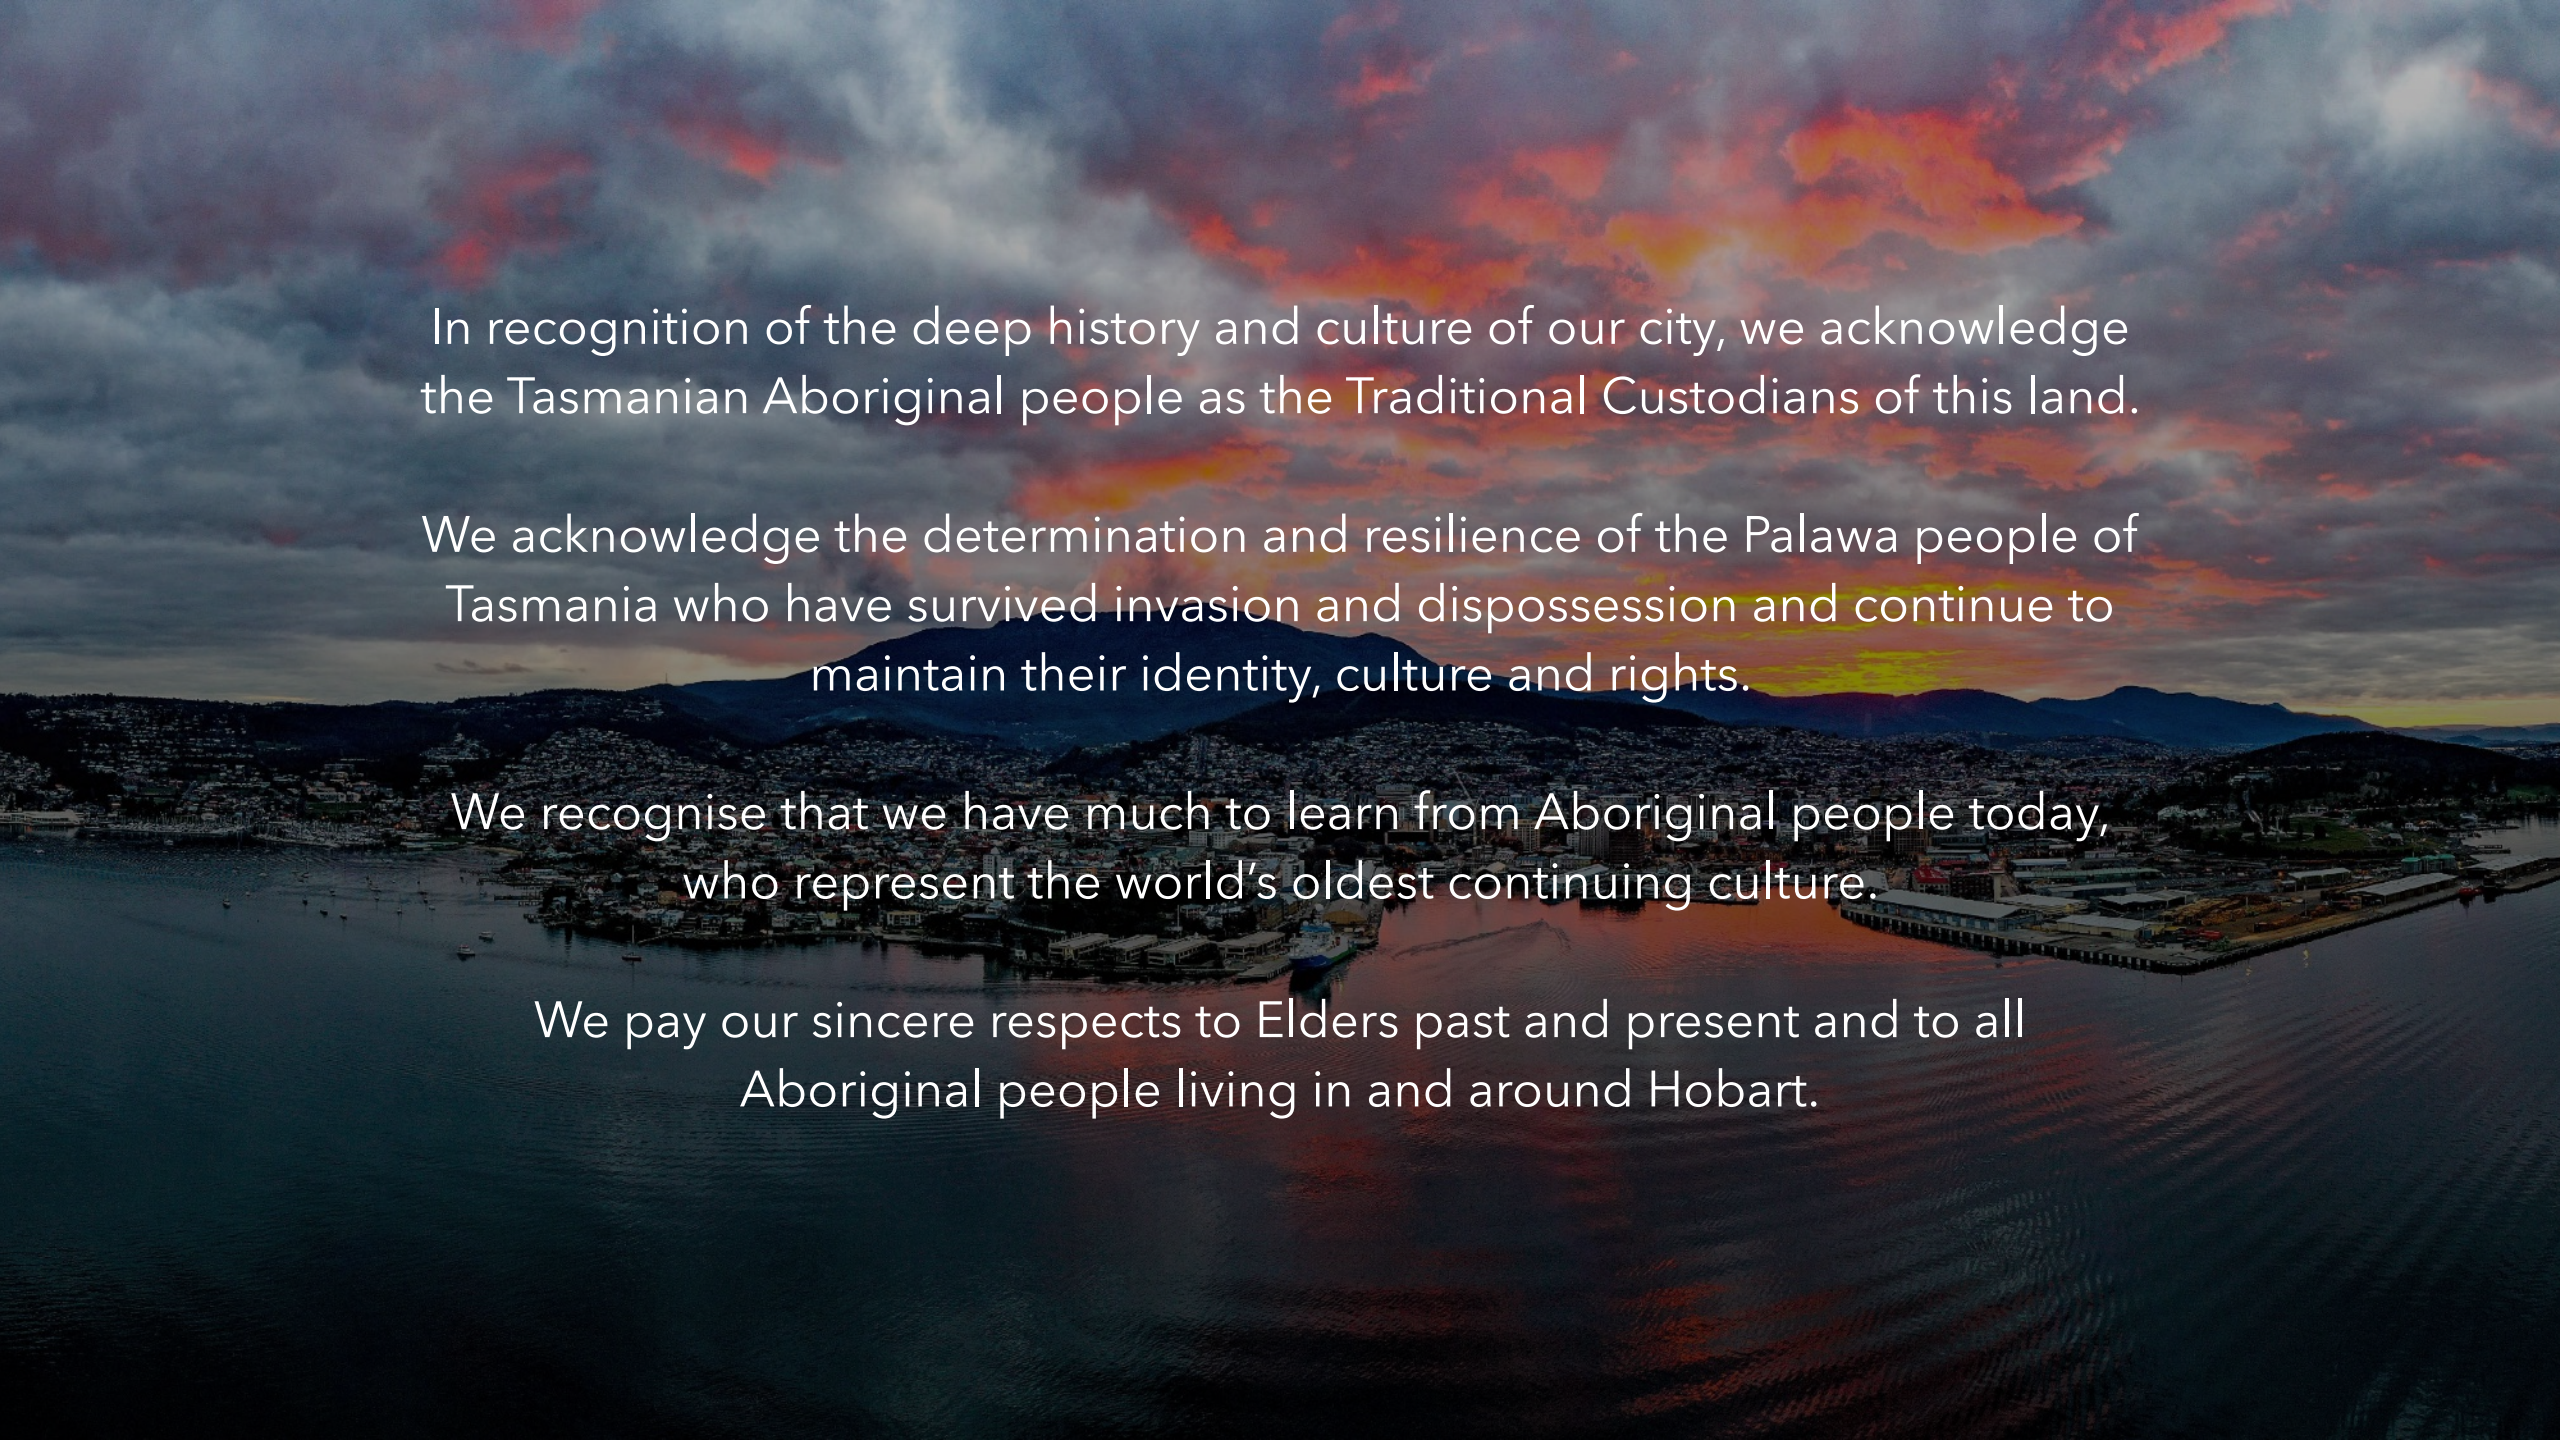

DAY 1 – 17 FEB 2024

City of HOBART

MESSAGE FROM THE LORD MAYOR

Councillor
Anna Reynolds
Lord Mayor,
City of Hobart

In recognition of the deep history and culture of our city, we acknowledge the Tasmanian Aboriginal people as the Traditional Custodians of this land.

We acknowledge the determination and resilience of the Palawa people of Tasmania who have survived invasion and dispossession and continue to maintain their identity, culture and rights.

We recognise that we have much to learn from Aboriginal people today, who represent the world's oldest continuing culture.

We pay our sincere respects to Elders past and present and to all Aboriginal people living in and around Hobart.

AGENDA

- Getting to know each other
- Understanding the role and remit of the Hobart Climate Assembly
- Panel: Why do we need to act on climate change?
- Lunch
- Reflections, learnings, insights
- Presentation: Council's role and what have they been doing?
- What do you think a climate ready future for Hobart could look like?

WHO'S HERE?

INTRODUCE YOURSELVES

- At your tables, let others know where you are from?
- One thing you love about Tasmania.
- Each table to then stand and meet another table - speed networking style. At your neighbouring table, introduce yourselves and find one thing you have in common apart from living in Tasmania.
- Repeat this with another table.

THE REMIT / WEEKEND 1

1. ***What advice do you have to help develop Hobart's Climate Strategy?***

2. ***How ambitious should the community and Council be in addressing climate change?***

3. ***What elements are most important to the community?***

TIPS FOR WORKING TOGETHER

- Be open & curious
- Avoid rabbit holes
- Collaborate & learn from others
- Consider the whole community
- Take time to understand
- Write down your questions
- Help make the process constructive & enjoyable
- If you're quieter be brave, if you talk lots make space for others

DELIBERATION – WHAT MAKES IT DIFFERENT?

- Some surveys give you 5 seconds to respond to a question. You will have 24 hours together in total, and time to think in between, to help you to arrive at a judgment (not an opinion)
- Deliberation literally means ‘weighing up’ something which is tricky
- It’s different to a debate - where people push for their positions on a particular issue and try to outpoint each other, and only welcoming information that supports their existing point of view
- It’s deeper than just discussion (similar roots in Latin to percussion) - discussion might generate noise, not necessarily learning.
- Deliberative processes are becoming more popular as they provide time to think, to work together, with the benefit of solid information, to make judgments and provide advice
