CLIMATE READY HOBART

Working together for our living city

HOBART CLIMATE ASSEMBLY

DAY 2 – 18 FEB 2024

City of HOBART

In recognition of the deep history and culture of our city, we acknowledge the Tasmanian Aboriginal people as the Traditional Custodians of this land.

We acknowledge the determination and resilience of the Palawa people of Tasmania who have survived invasion and dispossession and continue to maintain their identity, culture and rights.

We recognise that we have much to learn from Aboriginal people today, who represent the world's oldest continuing culture.

We pay our sincere respects to Elders past and present and to all Aboriginal people living in and around Hobart.

AGENDA

- Acknowledgment of Country
- Welcome
- Introducing the climate action framework - Jess Robbins
- *Zero emissions Hobart* briefing
- Deliberations / report back / polling
- Lunch
- *Building climate resilience* briefing
- Deliberations / report back / polling
- Briefings for *Restoring nature, Supporting equitable transitions* and *Mobilising climate leaders*
- Deliberations
- Deliberations / report back / polling
- Level of ambition poll
- Reflections and close

TIPS FOR WORKING TOGETHER

- Be open & curious
- Avoid rabbit holes
- Collaborate & learn from others
- Consider the whole community
- Take time to understand
- Write down your questions
- Help make the process constructive & enjoyable
- If you're quieter be brave, if you talk lots make space for others

BURNING QUESTIONS

INTRODUCING THE CLIMATE READY FRAMEWORK

PRESENTATION

Jessica Robbins
Climate lead,
City of Hobart

WHAT WILL THE NEW CLIMATE STARTEGY DO?

The 2040 Climate Ready Hobart Strategy will guide what the Council and community can do to respond to the global climate and biodiversity emergency.

It will be based on evidence of what the science says we need to do and informed by the community.

The Strategy aims to provide:

- A clear statement of what we hope to achieve together including clear targets to measure progress.
- A set of priorities on how to best respond to climate change and how to make the biggest impact where it matters most.
- Guidelines on how to make decisions and best use of resources (such as money, time, staff).
- A clear way of bringing the range of climate change priorities into one strategy, with nature and community being core to this strategy.
- A plan that is aligned to our community vision as well as national and international standards on climate change and drawing on international best practices.

STRATEGY

VISION

What is the desired future state we will move to?

PRIORITIES

Our overarching aspirations

GOALS

An achievable long-term outcome

OBJECTIVES

What will we do to achieve the goals? How will we get there?

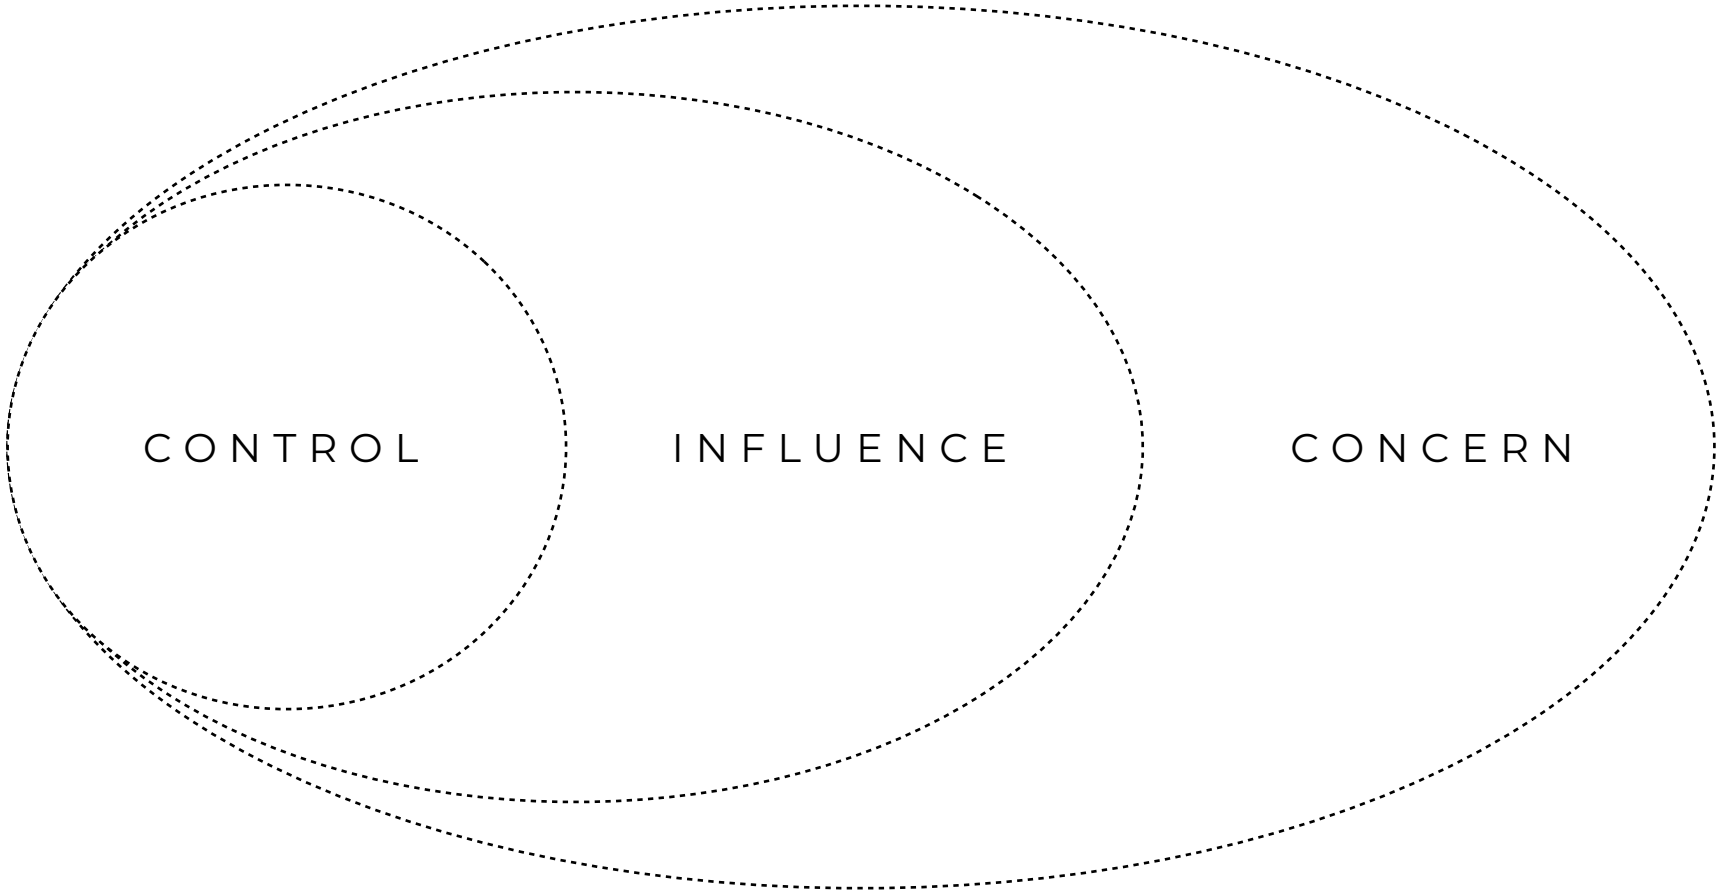

ACTION PLAN

ACTIONS

What are the steps?
Who does it and when?

SPHERES OF INFLUENCE

No one has full control, but we can use our influence.

DRAFT

LEAD AS A COUNCIL

PRIORITY

Lead as a council in delivering urgent and impactful climate action across the organisation

GOALS

1

Effective climate governance

2

Impactful advocacy

3

Drive best practice locally and globally

DRAFT

MOBILISE CLIMATE LEADERS

PRIORITY

Mobilise diverse climate leaders with the knowledge, skills, networks and support to build climate readiness in our households, neighbourhoods, organisations and across our city.

GOALS

1. Increase awareness & participation
2. Build knowledge & skills
3. Incentivise action
4. Enable collaboration & leadership
5. Foster innovation
